

UPDATED JUNE 9, 2021

We recognize the value of visiting your loved ones during treatment and have updated our guidelines to allow visitors with safety precautions between 7-9 p.m.

All visitors must adhere to social distancing, masking, and screening (temperature and signs/symptoms check) for COVID-19 prior to entry.

- A visitor with a history of COVID-19 may be permitted to visit if:
 - 10 days after diagnosis if the visitor did not require hospitalization
 - 20 days after diagnosis if the visitor did require hospitalization

Visitors are encouraged to call ahead before visiting at (818) 787-1511.
